SUMMARY

Motivated Computer Science undergraduate with hands-on experience in **Android development**, **cross-platform mobile apps**, and **AI-assisted development workflows**. Proven ability to deliver functional applications through hackathons and personal projects. Seeking software engineering opportunities to apply problem-solving skills and grow as a full-stack developer.

EDUCATION

Institute of Aeronautical Engineering, Hyderabad — *Expected May 2028*
Bachelor of Technology in Computer Science and Engineering — **CGPA: 8.58 / 10.0**

Narayana Junior College, Kukatpally — *March 2024*
Intermediate (MPC - Mathematics, Physics, Chemistry) — **Percentage: 94.0%**

TECHNICAL SKILLS

Programming Languages:	Java, Python, Kotlin, Dart
Web Technologies:	JavaScript, React, TypeScript
Mobile Development:	Android SDK, Flutter, Jetpack Compose
Tools & Platforms:	Git, GitHub, Android Studio, VS Code, Firebase, Google AI Studio
Core Concepts:	Object-Oriented Programming, Data Structures & Algorithms, Prompt Engineering

PROJECTS

Vikify – Android Music Player *GitHub*
Technologies: Kotlin, Android SDK, ExoPlayer, Material Design 3

- Developed a native Android music player with **background playback** and **notification controls**
- Implemented **decoupled service architecture** for seamless audio playback during UI navigation
- Built custom UI components following **Material Design 3** guidelines for modern user experience

Secure-AI-Pipeline – Security Pipeline UI Prototype *GitHub*
Technologies: TypeScript, React, Vite

- Built a TypeScript-based web interface to represent a secure AI pipeline workflow
- Implemented UI components for visualizing pipeline stages and security checks
- Structured the project as a foundation for future CI/CD and security tool integration

Fake News Detector – ML Classification System *GitHub*
Technologies: Python, TensorFlow, NLP, BERT/RoBERTa

- Built an **NLP-powered classification model** to detect misinformation in news articles
- Implemented **BERT-based text analysis** with confidence scoring for predictions
- Developed attention visualization for model interpretability and explainability

ACHIEVEMENTS

- **3rd Prize** – National-Level Hackathon(View Certificate)
- Active problem solver on **LeetCode** and **GeeksforGeeks** – practicing DSA for competitive programming
- Contributed to open-source projects on **GitHub** with 6+ public repositories

CODING PROFILES

LeetCode:	leetcode.com/u/dPqPqsFd0k
GeeksforGeeks:	geeksforgeeks.org/user/vishnukan5jhk
HackerRank:	hackerrank.com/profile/vishnukanchipati
